// We chosen to implement SourceEdge's EdgeERP solution after failure to implement out-of-box ERP. SE EdgeERP delivered us an integrated solution of financial accounting, purchase, inventory and sales including POS for our retail outlets. It provided us real time data of business, helped us to make decision quickly, agile enough to configure and design business specific features and finally enabling us to define business policy, process sales plan & price management the way we wanted. We are happy about EdgeERP delivered to us ROI & satisfaction compared to branded ERP that couldn't deliver.

- JAGADEESH KUMAR P.
CEO, Bharath Glass & Crockerries
